PROFESSIONAL SUMMARY

Aspiring Artificial Intelligence and Data Science student with strong problem-solving skills and hands-on experience in software development, machine learning, and AI-driven applications. Skilled in Python, SQL, full-stack development, and building intelligent systems using modern technologies.

Education

Sri Krishna College of Engineering and Technology

2023 – PRESENT

- CGPA : 8.14

S.B.O.A Matriculation Higher Secondary School - HSC: 72%

2021 – 2023

Technical Skills

Languages: Python, SQL , C++

Tools: GitHub, Postman, VS Code

Core: Data Structures & Algorithms, OOP

Backend: REST APIs, Spring Boot

Coursework Certifications

- **SkillUP in Tableau** (Infosys SpringBoard)
- **Introduction to Cybersecurity** (Cisco)
- **Introduction to Deep Learning NLP** (Infosys SpringBoard)
- **Introduction to MongoDB, AI, and Vector Search** (MongoDB)

Projects

Blog App | MERN Stack

- Developed a full-stack blog application using MongoDB, Express.js, React.js, and Node.js with authentication.
- Implemented CRUD operations for creating, editing, and managing blog posts.
- Designed a responsive and user-friendly UI for seamless content interaction.

AI-Based Early Sepsis Detection System | Spring Boot, Python (ML)

- Developed a system for early sepsis detection using patient health data and real-time monitoring.
- Built Spring Boot backend and integrated Python-based machine learning models for prediction.
- Designed a dashboard to visualize patient parameters and prediction results.

AI-Powered QA Chatbot | Python, LLM, RAG, Embeddings

- Built an AI-driven chatbot using LLMs to answer user queries from uploaded documents.
- Integrated document chunking, embeddings, and vector storage for semantic search.
- Enhanced response generation using Retrieval-Augmented Generation (RAG).

Internship

KANINI Software Solutions, Coimbatore – Data Analytics Intern

May 2026 – June 2026

- Gained hands-on exposure to LLMs, RAG, ETL processes, APIs, and AI Agents through practical learning and industry sessions.
- Developed an AI-powered QA chatbot using LLM and RAG techniques for document-based query answering.
- Interacted with industry experts to understand real-world data analytics workflows and AI-driven solutions.
